

Barrow Hanley Total Return Bond Fund

Institutional | BTRIX

INVESTMENT OBJECTIVE

The Fund seeks to provide maximum long-term total return.

INVESTMENT OVERVIEW

We believe markets are inefficient, and that these inefficiencies can best be exploited through adherence to a valuation centric investment process dedicated to the selection of investment grade securities on a bottom-up basis. Our team focuses primarily on fundamental securities analysis.

IMPORTANT INFORMATION

¹ The Bloomberg US Aggregate Index is a broad-based benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. It is not possible to directly invest in an unmanaged index.

² **Average Maturity:** The weighted average of maturities (specified date of repayment of principal) of the bonds held in the portfolio. **Effective Duration:** Duration is a measure of sensitivity of the price of a bond to changes in interest rates. Effective duration takes into account that expected cash flows will fluctuate as interest rates change. **30-Day SEC Yield:** Reflects the dividends and interest earned during the fund's most recent 30 day period after expenses. **30-Day SEC Yield (unsubsidized):** 30-Day SEC yield but does not reflect fee waivers or reimbursements.

³ Cash represents cash and any short-term or overnight investments held by the Fund.

⁴ Ratings shown are given by one of the following national rating agencies: S&P, Moody's or Fitch. Credit ratings are subject to change. If there are two or three ratings for a security, the simple average of those ratings is used. If only one of the agencies rates a security, that rating is used. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC/CC/C and D are below-investment grade ratings. U.S. government and agency mortgage-backed securities, if owned by the Fund, are included in the U.S. Treasury/Agency category (included only if applicable). Holdings designated NR are not rated by these national rating agencies and, where applicable, include net derivative positions.

⁵ Top issuers are shown as % of total net assets. Information about the Fund's issuers should not be considered investment advice. There is no guarantee that the Fund will continue to hold any one particular security or stay invested in any one particular sector. Issuers are subject to change at any time.⁵

Risks: The Fund's returns will vary, and you could lose money by investing in the Fund. Bonds and bond funds are subject to interest rate risk and will decline in value as interest rates rise. High-yield bond issuers are usually not as strong financially as investment-grade bond issuers and, therefore, are more likely to suffer an adverse change in financial condition that would result in the inability to meet a financial obligation. Accordingly, securities and loans involving such companies carry a higher risk of default and should be considered speculative.

An investor should consider the Fund's investment objectives, risks, and charges and expenses carefully before investing or sending any money. This and other important information about the Funds can be found in the Fund's prospectus or summary prospectus which can be obtained at www.perpetual.com or by calling 866-260-9549 or 312-557-5913. Please read the prospectus or summary prospectus carefully before investing.
