(each, a "Fund" and together, the "Funds")**

**Supplement dated June 7, 2024 to the Funds' Summary Prospectuses, Prospectuses
and Statement of Additional Information (the "SAI"), each dated March 1, 2024.**

This supplement provides new and additional information beyond that contained in the Summary Prospectuses, Prospectuses and SAI and should be read in conjunction with the Summary Prospectuses, Prospectuses and SAI.

I. Perpetual US Services LLC, Doing Business As PGIA ("PGIA"), the Funds' investment adviser, has determined to reorganize the Funds into newly created shell series of Perpetual Americas Funds Trust (the "Acquiring Trust"). Based on PGIA's recommendation, the Board of Trustees (the "Board") of the Trust has approved an agreement and plan of reorganization providing for the reorganization (each, a "Reorganization" and together, the "Reorganizations") of the Funds into the following shell funds of the Acquiring Trust (each, an "Acquiring Fund" and together, the "Acquiring Funds") to be advised by Perpetual Americas Funds Services, an affiliate of PGIA, and sub-advised by Barrow, Hanley, Mewhinney & Strauss, LLC ("Barrow Hanley"), the Funds' sub-adviser:

Fund	Acquiring Fund
Barrow Hanley Emerging Markets Value Fund	Barrow Hanley Emerging Markets Value Fund
Barrow Hanley International Value Fund	Barrow Hanley International Value Fund
Barrow Hanley Concentrated Emerging Markets ESG Opportunities Fund	Barrow Hanley Concentrated Emerging Markets ESG Opportunities Fund
Barrow Hanley Total Return Bond Fund	Barrow Hanley Total Return Bond Fund
Barrow Hanley Credit Opportunities Fund	Barrow Hanley Credit Opportunities Fund
Barrow Hanley Floating Rate Fund	Barrow Hanley Floating Rate Fund
Barrow Hanley US Value Opportunities Fund	Barrow Hanley US Value Opportunities Fund

Following the closing of the Reorganizations, the Acquiring Funds will be managed by the same portfolio management teams at Barrow Hanley that currently manage the Funds, and the investment objectives, investment policies and investment risks of the Acquiring Funds will remain substantially similar to those of the corresponding Funds. The Reorganizations are intended to be tax-free, meaning that the Funds' shareholders would become shareholders of the Acquiring Funds upon closing of the Reorganizations without realizing any gain or loss for federal income tax purposes.

The Reorganizations are subject to shareholder approval, though no shareholder action is necessary at this time. Shareholders of record of the Funds on or about June 7, 2024 will receive a proxy statement/prospectus that contains important information about their Reorganization(s) and the Acquiring Fund(s) in which they would own shares upon closing of the Reorganization(s), including information about investment strategies and risks, fees and expenses. Prior to the Reorganizations, Fund shareholders may continue to purchase, redeem and exchange their shares subject to the limitations described in the Prospectuses. If shareholders approve the Reorganizations and other closing conditions are met, the closing of the Reorganizations are currently scheduled to take place upon the opening of business on August 19, 2024.

The foregoing is not an offer to sell, nor a solicitation of an offer to buy, shares of the Funds or the Acquiring Funds, nor is it a solicitation of any proxy. When it is available, please read the proxy statement/prospectus carefully before making any decision to invest or when considering the Reorganizations. The proxy statement/prospectus will be available for free on the SEC's website (www.sec.gov).

II. The Board has approved the elimination of the 1.00% redemption fee charged by the Funds on redemptions of shares that have been held for less than 30 days (the "Redemption Fee"). Therefore, effective immediately, all references to the Redemption Fee are hereby deleted from the Summary Prospectuses and Prospectus.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE

The Advisors' Inner Circle Fund III

Summary Prospectus | March 1, 2024

Barrow Hanley Total Return Bond Fund

I Shares: BTRIX

Y Shares: BTRYX

Investment Adviser: Perpetual US Services LLC, Doing Business As PGIA

Sub-Adviser: Barrow, Hanley, Mewhinney & Strauss, LLC

Click here to view the fund's **statutory prospectus** or **statement of additional information**.

Before you invest, you may want to review the Fund's complete prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <https://www.perpetual.com/mutual-funds/barrow-hanley-total-return-bond-fund>. You can also get this information at no cost by calling 866-778-6397, by sending an e-mail request to PerpetualFunds@seic.com, or by asking any financial intermediary that offers shares of the Fund. The Fund's prospectus and statement of additional information, both dated March 1, 2024, as they may be amended from time to time, are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website, phone number or e-mail address noted above.

Investment Objective

The Barrow Hanley Total Return Bond Fund (the “Total Return Bond Fund” or the “Fund”) seeks to provide maximum long-term total return.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in I Shares, which are not reflected in the tables or the example below.

Shareholder Fees (fees paid directly from your investment)

Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days)	1.00%
--	-------

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	I Shares	Y Shares
Management Fees	0.35%	0.35%
Other Expenses	0.55%	0.70%
Shareholder Servicing Fees	None	0.15%
Other Operating Expenses	0.55%	0.55%
Total Annual Fund Operating Expenses	0.90%	1.05%
Less Fee Reductions and/or Expense Reimbursements ¹	(0.55)%	(0.55)%
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements	0.35%	0.50%

¹ Perpetual US Services, LLC, doing business as PGIA (the “Adviser” or “Perpetual-PGIA”) has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions and other costs and expenses relating to the securities that are purchased and sold by the Fund, Shareholder Servicing Fees, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles and other non-routine expenses, such as litigation (collectively, “excluded expenses”)) from exceeding 0.35% of the Fund’s average daily net assets until February 28, 2025 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or

expense reimbursements made during the rolling three-year period preceding the date of the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement will terminate automatically upon the termination of the Fund's investment advisory agreement and may be terminated: (i) by the Board of Trustees (the "Board") of The Advisors' Inner Circle Fund III (the "Trust"), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on February 28, 2025.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses (including one year of capped expenses in each period) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
I Shares	\$36	\$232	\$445	\$1,057
Y Shares	\$51	\$279	\$526	\$1,233

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund's performance. During its most recent fiscal year, the Fund's portfolio turnover rate was 125% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in fixed income securities and other debt instruments. This investment policy may be changed by the Fund upon 60 days' prior written notice to shareholders. Fixed income securities and other debt instruments include corporate bonds, including high yield bonds, commercial paper, debt securities issued or guaranteed by the U.S. government and its agencies and instrumentalities, Treasury Inflation-

Protected Securities (“TIPS”), municipal bonds, bank loans, mortgage- and asset-backed securities and convertible securities.

Barrow, Hanley, Mewhinney & Strauss, LLC (the “Sub-Adviser” or “Barrow Hanley”), the Fund’s sub-adviser, believes investing in undervalued securities with above-average yield to maturity and capital appreciation potential has the potential to generate above-average returns over the long term while minimizing volatility and, therefore, downside risk. Using this approach, Barrow Hanley seeks to construct a portfolio of U.S. investment grade fixed income securities with diversified maturities.

Barrow Hanley’s analysis of the credit quality of fixed income securities and other debt instruments looks at cash flow, earnings, and balance sheet fundamentals, as well as any supply/demand factors that Barrow Hanley believes will impact the future credit rating of the issuer and the yield premium. A significant focus in Barrow Hanley’s credit research is identifying the credits that have a greater probability of ratings upgrades while avoiding downgrades. Barrow Hanley reviews the financial statements and Securities and Exchange Commission filings of companies, analyzing, among other factors, the following fundamental factors in the selection process:

- Management’s stated business goals are reviewed for reasonableness and consistency.
- The ability to pay down debt with free cash flow.
- Profitability measures compared to similarly rated companies for return on equity, return on capital, and return on investment.
- Revenue and earnings growth, including margin trends in operating earnings.
- Various credit measures, including EBITDA, selling, general and administrative (SG&A) expenses, leverage, and interest coverage ratios, both absolute and trends.
- Disclosures of any off-balance-sheet items, in order to adjust the financial calculations listed above accordingly.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any other government agency.** The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

Credit Risk – The risk that the issuer of a security or the counterparty to a contract will default or otherwise become unable to honor a financial obligation.

Interest Rate Risk – As with most funds that invest in fixed income securities, changes in interest rates could affect the value of your investment. Rising interest rates tend to cause the prices of fixed income securities (especially those with longer maturities and lower credit qualities) and the Fund's share price to fall. Very low or negative interest rates may prevent the Fund from generating positive returns and may increase the risk that if followed by rising interest rates the Fund's performance will be negatively impacted.

Fixed Income Securities Risk – The prices of the Fund's fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the creditworthiness of individual issuers, including governments and their agencies. Generally, the Fund's fixed income securities will decrease in value if interest rates rise and vice versa. In a low interest rate environment, risks associated with rising rates are heightened. Declines in dealer market-making capacity as a result of structural or regulatory changes could decrease liquidity and/or increase volatility in the fixed income markets.

Corporate Fixed Income Securities Risk – The prices of the Fund's corporate fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the creditworthiness and business prospects of individual issuers.

Commercial Paper Risk – Commercial paper is a short-term obligation with a maturity generally ranging from one to 270 days and is issued by U.S. or foreign companies or other entities in order to finance their current operations. Such investments are unsecured and usually discounted from their value at maturity. The value of commercial paper may be affected by changes in the credit rating or financial condition of the issuing entities and will tend to fall when interest rates rise and rise when interest rates fall. Asset-backed commercial paper may be issued by structured investment vehicles or other conduits that are organized to issue the commercial paper and to purchase trade receivables or other financial assets. The repayment of asset-backed commercial paper depends primarily on the cash collections received from such an issuer's underlying asset portfolio and the issuer's ability to issue new asset-backed commercial paper.

U.S. Government Securities Risk – The Fund's investment in U.S. government obligations may include securities issued or guaranteed as to principal and interest by the U.S. government, or its agencies or instrumentalities. Payment of principal and interest on U.S. government obligations may be backed by

the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. There can be no assurance that the U.S. government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so. In addition, U.S. government securities are not guaranteed against price movements due to changing interest rates.

Inflation Protected Securities Risk – The value of inflation protected securities, including TIPS, will generally fluctuate in response to changes in “real” interest rates, generally decreasing when real interest rates rise and increasing when real interest rates fall. Real interest rates represent nominal (or stated) interest rates reduced by the expected impact of inflation. In addition, interest payments on inflation-indexed securities will generally vary up or down along with the rate of inflation.

Municipal Bonds Risk – The Fund could be impacted by events in the municipal securities market. Negative events, such as severe fiscal difficulties, bankruptcy, an economic downturn, unfavorable legislation, court rulings or political developments could adversely affect the ability of municipal issuers to repay principal and to make interest payments.

Bank Loans Risk – Investments in bank loans (through both assignments and participations) are generally subject to the same risks as investments in other types of debt instruments, including, in many cases, investments in high yield bonds. There may be limited public information available regarding bank loans and bank loans may be difficult to value. If the Fund holds a bank loan through another financial institution, or relies on a financial institution to administer the loan, its receipt of principal and interest on the loan may be subject to the credit risk of that financial institution. It is possible that collateral securing a loan, if any, may be insufficient or unavailable to the Fund, and that the Fund’s rights to collateral may be limited by bankruptcy or insolvency laws. In addition, the secondary market for bank loans may be subject to irregular trading activity and wide bid/ask spreads, which may cause the Fund to be unable to realize the full value of its investment in a bank loan. Bank loans may have extended settlement periods that exceed seven days and, accordingly, may be considered illiquid. Purchases and sales of loans in the secondary market generally are subject to contractual restrictions that may delay the Fund’s ability to make timely redemptions.

Bank loans may not be considered “securities,” and purchasers, such as the Fund, therefore may not be entitled to rely on the anti-fraud protections of the federal securities laws.

Mortgage-Backed Securities Risk – Mortgage-backed securities are affected by, among other things, interest rate changes and the possibility of

prepayment of the underlying mortgage loans. Mortgage-backed securities are also subject to the risk that underlying borrowers will be unable to meet their obligations.

Asset-Backed Securities Risk – Payment of principal and interest on asset-backed securities is dependent largely on the cash flows generated by the assets backing the securities, and asset-backed securities may not have the benefit of any security interest in the related assets.

Convertible Securities Risk – The value of a convertible security is influenced by changes in interest rates (with investment value declining as interest rates increase and increasing as interest rates decline) and the credit standing of the issuer. The price of a convertible security will also normally vary in some proportion to changes in the price of the underlying common stock because of the conversion or exercise feature.

High Yield Bond Risk – High yield, or “junk,” bonds are debt securities rated below investment grade. High yield bonds are speculative, involve greater risks of default, downgrade, or price declines and are more volatile and tend to be less liquid than investment-grade securities. Companies issuing high yield bonds are less financially strong, are more likely to encounter financial difficulties, and are more vulnerable to adverse market events and negative sentiments than companies with higher credit ratings.

Liquidity Risk – Certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on Fund management or performance.

Prepayment Risk – The risk that, in a declining interest rate environment, fixed income securities with stated interest rates may have the principal paid earlier than expected, requiring the Fund to invest the proceeds at generally lower interest rates.

Extension Risk – The risk that rising interest rates may extend the duration of a fixed income security, typically reducing the security’s value.

Active Management Risk – The Fund is subject to the risk that the Adviser’s or the Sub-Adviser’s judgments about the attractiveness, value, or potential appreciation of the Fund’s investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to its benchmark index or other funds with similar objectives and investment strategies.

Market Risk – The prices of and the income generated by the Fund’s securities may decline in response to, among other things, investor sentiment, general economic and market conditions, regional or global instability, and currency and interest rate fluctuations. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund’s performance and cause losses on your investment in the Fund. Market risk may affect a single issuer, an industry, a sector or the equity or bond market as a whole.

Management/Systematic or Quantitative Process Risk – The value of the Fund may decline if the Adviser’s or the Sub-Adviser’s judgments about the attractiveness, relative value or potential appreciation of a particular security or strategy prove to be incorrect. Because the Adviser and the Sub-Adviser each relies, in part, on a systematic, quantitative screening process in selecting securities for the Fund, the Fund is subject to the additional risk that the Adviser’s or the Sub-Adviser’s judgments regarding the investment criteria underlying the screening process may prove to be incorrect.

Performance Information

The Fund acquired substantially all of the assets of another investment vehicle (the “Predecessor Fund”) on April 12, 2022 in exchange for I Shares of the Fund, and the Fund commenced operations on such date. Accordingly, the performance shown in the bar chart and performance table below prior to April 12, 2022 is the performance of the Predecessor Fund. The Predecessor Fund was managed by the Adviser using investment policies, objectives, guidelines and restrictions that were in all material respects equivalent to those of the Fund. However, the Predecessor Fund was not a registered mutual fund, and therefore was not subject to the same investment and tax restrictions as the Fund. If the Predecessor Fund operated as a registered mutual fund, the Predecessor Fund’s performance may have been lower. The Predecessor Fund’s performance has been adjusted to reflect the fees and expenses of the Fund’s I Shares in the bar chart, and the fees and expenses of the Fund’s I Shares and Y Shares in the performance table.

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Fund by showing changes in the performance of the Fund’s I Shares from year to year, and by showing how average annual total returns of the Fund for 1, 5 and 10 years compare with a broad measure

of market performance. Y Shares of the Fund do not have performance history for a full calendar year, and therefore performance information for Y Shares is not presented. Y Shares of the Fund would have substantially similar performance as I Shares because the shares are invested in the same portfolio of securities, and the annual returns would differ only to the extent that the expenses of Y Shares are higher than the expenses of I Shares and, therefore, returns for Y Shares would be lower than those of the I Shares. Of course, the Fund’s past performance does not necessarily indicate how the Fund will perform in the future.

Updated performance information is available on the Fund’s websites at Perpetual.com and BarrowHanley.com or by calling toll-free to 866-778-6397.

The performance information shown above is based on a calendar year.

Average Annual Total Returns for Periods Ended December 31, 2023

This table compares the average annual total returns of the Fund for the periods ended December 31, 2023 to those of the Bloomberg US Aggregate Bond Index.

	1 Year	5 Years	10 Years
I Shares			
Fund Returns Before Taxes	5.51%	0.98%	1.56%
Fund Returns After Taxes on Distributions	4.04%	0.52%	1.32%
Fund Returns After Taxes on Distributions and Sale of Fund Shares	3.24%	0.56%	1.10%
Bloomberg US Aggregate Bond Index (reflects no deductions for fees, expenses or taxes)	5.53%	1.10%	1.81%

Investment Advisers

Perpetual US Services, LLC, doing business as PGIA serves as investment adviser to the Fund. Barrow Hanley serves as investment sub-adviser to the Fund and is responsible for the management of the Fund's portfolio of securities. Each of the investment adviser and the investment sub-adviser is a subsidiary of Perpetual Limited, an Australian Stock Exchange-listed, diversified financial services company.

Portfolio Managers

Deborah Petruzzelli, Managing Director, Fixed Income Portfolio Manager and Analyst at Barrow Hanley has managed the Fund since its inception in 2022.

Scott McDonald, CFA, Senior Managing Director and Fixed Income Portfolio Manager at Barrow Hanley has managed the Fund since its inception in 2022.

Justin Martin, CFA, Director, Fixed Income Portfolio Manager and Analyst at Barrow Hanley has managed the Fund since its inception in 2022.

Matt Routh, CFA, Director, Fixed Income Portfolio Manager and Analyst at Barrow Hanley has managed the Fund since its inception in 2022.

Purchase and Sale of Fund Shares

You may generally purchase or redeem shares on any day that the New York Stock Exchange ("NYSE") is open for business.

To purchase I Shares of the Fund for the first time, you must invest at least \$100,000.

To purchase Y Shares of the Fund for the first time, you must invest at least \$2,500.

Y Shares of the Fund are currently not available for purchase.

Subsequent investments must be made in amounts of at least \$50. The Fund may accept investments of smaller amounts in its sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at: Perpetual Funds, PO Box 588, Portland, ME 04112 (Express Mail Address: Perpetual Funds c/o Atlantic Shareholder Services, LLC, Three Canal Plaza, Ground Floor, Portland, ME 04101) or telephone at 866-778-6397.

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income, or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement account ("IRA"), in which case your distribution will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.
