

## THE ADVISORS' INNER CIRCLE FUND III (the "Trust")

**Barrow Hanley Emerging Markets Value Fund**  
**Barrow Hanley International Value Fund**  
**Barrow Hanley Concentrated Emerging Markets ESG Opportunities Fund**  
**Barrow Hanley Total Return Bond Fund**  
**Barrow Hanley Credit Opportunities Fund**  
**Barrow Hanley Floating Rate Fund**  
**Barrow Hanley US Value Opportunities Fund**  
(each, a "Fund" and together, the "Funds")

**Supplement dated June 7, 2024 to the Funds' Summary Prospectuses, Prospectuses  
and Statement of Additional Information (the "SAI"), each dated March 1, 2024.**

*This supplement provides new and additional information beyond that contained in the Summary Prospectuses, Prospectuses and SAI and should be read in conjunction with the Summary Prospectuses, Prospectuses and SAI.*

I. Perpetual US Services LLC, Doing Business As PGIA ("PGIA"), the Funds' investment adviser, has determined to reorganize the Funds into newly created shell series of Perpetual Americas Funds Trust (the "Acquiring Trust"). Based on PGIA's recommendation, the Board of Trustees (the "Board") of the Trust has approved an agreement and plan of reorganization providing for the reorganization (each, a "Reorganization" and together, the "Reorganizations") of the Funds into the following shell funds of the Acquiring Trust (each, an "Acquiring Fund" and together, the "Acquiring Funds") to be advised by Perpetual Americas Funds Services, an affiliate of PGIA, and sub-advised by Barrow, Hanley, Mewhinney & Strauss, LLC ("Barrow Hanley"), the Funds' sub-adviser:

<b>Fund</b>	<b>Acquiring Fund</b>
Barrow Hanley Emerging Markets Value Fund	Barrow Hanley Emerging Markets Value Fund
Barrow Hanley International Value Fund	Barrow Hanley International Value Fund
Barrow Hanley Concentrated Emerging Markets ESG Opportunities Fund	Barrow Hanley Concentrated Emerging Markets ESG Opportunities Fund
Barrow Hanley Total Return Bond Fund	Barrow Hanley Total Return Bond Fund
Barrow Hanley Credit Opportunities Fund	Barrow Hanley Credit Opportunities Fund
Barrow Hanley Floating Rate Fund	Barrow Hanley Floating Rate Fund
Barrow Hanley US Value Opportunities Fund	Barrow Hanley US Value Opportunities Fund

Following the closing of the Reorganizations, the Acquiring Funds will be managed by the same portfolio management teams at Barrow Hanley that currently manage the Funds, and the investment objectives, investment policies and investment risks of the Acquiring Funds will remain substantially similar to those of the corresponding Funds. The Reorganizations are intended to be tax-free, meaning that the Funds' shareholders would become shareholders of the Acquiring Funds upon closing of the Reorganizations without realizing any gain or loss for federal income tax purposes.

The Reorganizations are subject to shareholder approval, though no shareholder action is necessary at this time. Shareholders of record of the Funds on or about June 7, 2024 will receive a proxy statement/prospectus that contains important information about their Reorganization(s) and the Acquiring Fund(s) in which they would own shares upon closing of the Reorganization(s), including information about investment strategies and risks, fees and expenses. Prior to the Reorganizations, Fund shareholders may continue to purchase, redeem and exchange their shares subject to the limitations described in the Prospectuses. If shareholders approve the Reorganizations and other closing conditions are met, the closing of the Reorganizations are currently scheduled to take place upon the opening of business on August 19, 2024.

The foregoing is not an offer to sell, nor a solicitation of an offer to buy, shares of the Funds or the Acquiring Funds, nor is it a solicitation of any proxy. When it is available, please read the proxy statement/prospectus carefully before making any decision to invest or when considering the Reorganizations. The proxy statement/prospectus will be available for free on the SEC's website ([www.sec.gov](http://www.sec.gov)).

II. The Board has approved the elimination of the 1.00% redemption fee charged by the Funds on redemptions of shares that have been held for less than 30 days (the "Redemption Fee"). Therefore, effective immediately, all references to the Redemption Fee are hereby deleted from the Summary Prospectuses and Prospectus.

**PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE**

PBH-SK-008-0200

Before you invest, you may want to review the Fund's complete prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <https://www.perpetual.com/mutual-funds/barrow-hanley-us-value-opportunities-fund>. You can also get this information at no cost by calling 866-778-6397, by sending an e-mail request to [PerpetualFunds@seic.com](mailto:PerpetualFunds@seic.com), or by asking any financial intermediary that offers shares of the Fund. The Fund's prospectus and statement of additional information, both dated March 1, 2024, as they may be amended from time to time, are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website, phone number or e-mail address noted above.

# Investment Objective

The Barrow Hanley US Value Opportunities Fund (the “US Value Opportunities Fund” or the “Fund”) seeks to achieve risk-adjusted equity returns in excess of the Fund’s benchmark over multiple year time periods.

## Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in I Shares, which are not reflected in the tables or the example below.

### Shareholder Fees (fees paid directly from your investment)

Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days)	1.00%
--	-------

### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	I Shares	Y Shares
Management Fees	0.55%	0.55%
Other Expenses	0.40%	0.55%
Shareholder Servicing Fees	None	0.15%
Other Operating Expenses	0.40%	0.40%
Total Annual Fund Operating Expenses	0.95%	1.10%
Less Fee Reductions and/or Expense Reimbursements <sup>1</sup>	(0.24)%	(0.24)%
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements	0.71%	0.86%

<sup>1</sup> Perpetual US Services, LLC, doing business as PGIA (the “Adviser” or “Perpetual-PGIA”) has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions and other costs and expenses relating to the securities that are purchased and sold by the Fund, Shareholder Servicing Fees, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles and other non-routine expenses, such as litigation (collectively, “excluded expenses”)) from exceeding 0.71% of the Fund’s average daily net assets until February 28, 2025 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and

the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the date of the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement will terminate automatically upon the termination of the Fund's investment advisory agreement and may be terminated: (i) by the Board of Trustees (the "Board") of The Advisors' Inner Circle Fund III (the "Trust"), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on February 28, 2025.

**Example**

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses (including one year of capped expenses in each period) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
I Shares	\$73	\$279	\$502	\$1,144
Y Shares	\$88	\$326	\$583	\$1,319

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund's performance. During its most recent fiscal year, the Fund's portfolio turnover rate was 30% of the average value of its portfolio.

**Principal Investment Strategies**

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in securities issued by U.S. companies. This investment policy may be changed by the Fund upon 60 days' prior written notice to shareholders. The Fund invests primarily in a portfolio of equity securities issued by large, middle, and small capitalization U.S. companies and may also invest in convertible securities, preferred stock, real estate investment trusts ("REITs") and American Depositary Receipts

(“ADRs”). The companies whose shares are represented by the ADRs in which the Fund invests typically will have significant economic exposure to the U.S. economy, industries or marketplaces.

The Fund will pursue a strict value-oriented strategy by constructing portfolios of individual stocks, selected on a bottom-up basis, typically reflecting all three of the following value characteristics: price/earnings and price/book ratios below those of the S&P 500 Index and a dividend yield above that of the S&P 500 Index. In seeking to achieve its investment objective, the Fund follows a strategy based on an underlying philosophy that securities markets are inefficient and that these inefficiencies can be favorably exploited through adherence to a value-oriented investment process dedicated to individual stock selection on a bottom-up basis. The Fund does not attempt to time the market or rotate in and out of broad market sectors, as, Barrow, Hanley, Mewhinney & Strauss, LLC (the “Sub-Adviser” or “Barrow Hanley”) believes it is difficult, if not impossible, to add incremental value on a consistent basis by market timing.

The Fund will generally stay fully invested with what Barrow Hanley believes is a defensive, conservative orientation based on Barrow Hanley’s belief that above-average returns can be achieved while taking below average risks. Barrow Hanley implements this strategy by constructing portfolios of individual stocks that reflect all three value characteristics described above. Through a research-intensive process, Barrow Hanley’s investment team seeks to identify large, medium, and small capitalization companies that are undervalued and temporarily out of favor for reasons that can be identified and understood. Barrow Hanley seeks companies with profitability and earnings growth greater than that of the S&P 500 Index.

The strategy of emphasizing low price/book ratios as well as high dividend yields is intended to help achieve capital preservation in down markets. In periods of economic recovery and rising equity markets, this investment strategy seeks to achieve profitability and earnings growth rewarded by the expansion of price/earnings ratios and the generation of excess returns.

Barrow Hanley’s fundamental value analysis is a discipline that seeks to identify companies that not only possess the three characteristics of value discussed above, but also those companies whose businesses can exhibit high or improving profitability which translates into earnings growth above that of the S&P 500 Index. The qualitative aspects of Barrow Hanley’s investment analysis are designed to produce judgments regarding the prospects for a company’s business. Barrow Hanley believes that the value of the underlying business, identified through its quantitative analysis, can be “unlocked” as the company’s fundamentals improve and investor confidence is restored.

## Principal Risks

---

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any other government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below.

**Equity Risk** – Since it purchases equity securities, the Fund is subject to the risk that stock prices may fall over short or extended periods of time. Historically, the equity market has moved in cycles, and the value of the Fund's securities may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility. Common stock is generally subordinate to preferred stock and debt securities with respect to the payment of dividends and upon the liquidation or bankruptcy of the issuing company.

**Large Capitalization Risk** – The risk that larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Larger companies also may not be able to attain the high growth rates of successful smaller companies.

**Small and Medium Capitalization Risk** – The risk that small and medium capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, small and medium capitalization companies may have limited product lines, markets and financial resources and may depend upon a relatively small management group. Therefore, small and medium capitalization stocks may be more volatile than those of larger companies. Small and medium capitalization stocks may be traded OTC. OTC stocks may trade less frequently and in smaller volume than exchange listed stocks and may have more price volatility than that of exchange-listed stocks.

**Convertible Securities Risk** – The value of a convertible security is influenced by changes in interest rates (with investment value declining as interest rates increase and increasing as interest rates decline) and the credit standing of the issuer. The price of a convertible security will also normally vary in some proportion to changes in the price of the underlying common stock because of the conversion or exercise feature.

**Preferred Stock Risk** – Preferred stocks in which the Fund may invest are sensitive to interest rate changes, and are also subject to equity risk, which is the risk that stock prices will fall over short or extended periods of time. The rights of preferred stocks on the distribution of a company's assets in the

event of a liquidation are generally subordinate to the rights associated with a company's debt securities.

**Real Estate Investment Trusts Risk** – REITs are pooled investment vehicles that own, and usually operate, income-producing real estate. REITs are susceptible to the risks associated with direct ownership of real estate, such as the following: declines in property values; increases in property taxes, operating expenses, interest rates or competition; overbuilding; zoning changes; and losses from casualty or condemnation. REITs typically incur fees that are separate from those of the Fund. Accordingly, the Fund's investments in REITs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the REITs' operating expenses, in addition to paying Fund expenses. REIT operating expenses are not reflected in the fee table and example in this prospectus.

**Depository Receipts Risk** – Investments in ADRs may be less liquid and more volatile than the underlying securities in their primary trading market. If an ADR is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the ADR and the underlying security. Holders of ADRs may have limited or no rights to take action with respect to the underlying securities or to compel the issuer of the receipts to take action. The prices of ADRs may differ from the prices of securities upon which they are based.

**Foreign Company Risk** – Investing in foreign companies, including direct investments and investments through ADRs, poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These risks will not necessarily affect the U.S. economy or similar issuers located in the United States. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the "SEC") and foreign companies are generally not subject to the same level of regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publicly available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising the Fund's portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers and foreign markets and securities may be less liquid. In addition, periodic U.S. Government restrictions on investments in issuers from certain foreign countries may require the Fund to sell such investments at inopportune times, which could result in losses to the Fund.

**Foreign Currency Risk** – Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case the dollar value

of the Fund's investments in securities denominated in, and/or receiving revenues in, foreign currencies, would be adversely affected.

**Active Management Risk** – The Fund is subject to the risk that the Adviser's or the Sub-Adviser's judgments about the attractiveness, value, or potential appreciation of the Fund's investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to its benchmark index or other funds with similar objectives and investment strategies.

**Value Style Risk** – The Adviser's and the Sub-Adviser's value investment style may increase the risks of investing in the Fund. If the Adviser's or the Sub-Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations is inaccurate, the Fund could suffer losses or produce poor performance relative to other funds. In addition, "value stocks" can continue to be undervalued by the market for long periods of time.

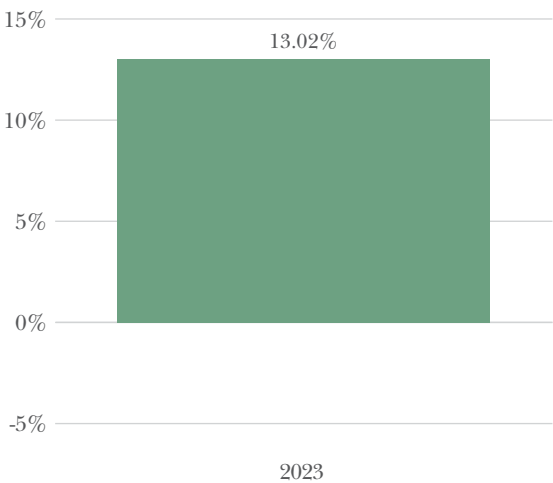

**Market Risk** – The prices of and the income generated by the Fund's securities may decline in response to, among other things, investor sentiment, general economic and market conditions, regional or global instability, and currency and interest rate fluctuations. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund. Market risk may affect a single issuer, an industry, a sector or the equity or bond market as a whole.

**Management/Systematic or Quantitative Process Risk** – The value of the Fund may decline if the Adviser's or the Sub-Adviser's judgments about the attractiveness, relative value or potential appreciation of a particular security or strategy prove to be incorrect. Because the Adviser and the Sub-Adviser each relies, in part, on a systematic, quantitative screening process in selecting securities for the Fund, the Fund is subject to the additional risk that the Adviser's or the Sub-Adviser's judgments regarding the investment criteria underlying the screening process may prove to be incorrect.

Performance Information

The bar chart and the performance table below illustrate the risks of an investment in the Fund by showing the performance of the Fund’s I Shares for the 2023 calendar year and by showing how the Fund’s average annual total returns for 1 year and since inception compare with those of a broad measure of market performance. Y Shares of the Fund do not have performance history for a full calendar year, and therefore performance information for Y Shares is not presented. Y Shares of the Fund would have substantially similar performance as I Shares because the shares are invested in the same portfolio of securities, and the annual returns would differ only to the extent that the expenses of Y Shares are higher than the expenses of I Shares and, therefore, returns for Y Shares would be lower than those of the I Shares. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future and does not guarantee future results.

Current performance information is available on the Fund’s websites at [Perpetual.com](http://Perpetual.com) and [BarrowHanley.com](http://BarrowHanley.com) or by calling toll-free to 866-778-6397.

BEST QUARTER	WORST QUARTER
10.37%	(1.20) %
12/31/2023	9/30/2023

The Performance information shown above is based on a calendar year.

## Average Annual Total Returns for Periods Ended December 31, 2023

This table compares the Fund's average annual total returns for the periods ended December 31, 2023 to those of the Russell 1000 Value Index.

	1 Year	Since Inception (04/12/2022)
<b>I Shares</b>		
Fund Returns Before Taxes	13.02%	5.75%
Fund Returns After Taxes on Distributions	12.67%	5.36%
Fund Returns After Taxes on Distributions and Sale of Fund Shares	7.96%	4.39%
<b>Russell 1000 Value Index (reflects no deductions for fees, expenses or taxes)</b>	11.46%	2.38%

## Investment Advisers

Perpetual US Services, LLC, doing business as PGIA serves as investment adviser to the Fund. Barrow Hanley serves as investment sub-adviser to the Fund and is responsible for the management of the Fund's portfolio of securities. Each of the investment adviser and the investment sub-adviser is a subsidiary of Perpetual Limited, an Australian Stock Exchange-listed, diversified financial services company.

## Portfolio Managers

Mark Giambrone, Executive Managing Director, Head of U.S. Equities, and Portfolio Manager at Barrow Hanley has managed the Fund since its inception in 2022.

Michael Nayfa, CFA, Managing Director, Equity Portfolio Manager and Analyst at Barrow Hanley has managed the Fund since its inception in 2022.

Terry Pelzel, CFA, Managing Director, Equity Portfolio Manager and Analyst at Barrow Hanley has managed the Fund since its inception in 2022.

## Purchase and Sale of Fund Shares

You may generally purchase or redeem shares on any day that the New York Stock Exchange ("NYSE") is open for business.

To purchase I Shares of the Fund for the first time, you must invest at least \$100,000.

To purchase Y Shares of the Fund for the first time, you must invest at least \$2,500.

Y Shares of the Fund are currently not available for purchase.

Subsequent investments must be made in amounts of at least \$50. The Fund may accept investments of smaller amounts in its sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at: Perpetual Funds, PO Box 588, Portland, ME 04112 (Express Mail Address: Perpetual Funds c/o Atlantic Shareholder Services, LLC, Three Canal Plaza, Ground Floor, Portland, ME 04101) or telephone at 866-778-6397.

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

## **Tax Information**

---

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income, or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement account ("IRA"), in which case your distribution will be taxed when withdrawn from the tax-deferred account.

## **Payments to Broker-Dealers and Other Financial Intermediaries**

---

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.
