

Barrow Hanley Floating Rate Fund

Class I | BFRNX

INVESTMENT OBJECTIVE

The Fund seeks to maximize total return, consistent with the preservation of capital.

INVESTMENT OVERVIEW

We believe markets are inefficient, and that these inefficiencies can best be exploited through adherence to a valuation centric investment process dedicated to the selection of securities on a bottom-up basis. Additional market forces of rate volatility, market liquidity, new issue underwriting activity and fund flows, among other influences, create inefficiencies that provide trading opportunities.

PERFORMANCE (As of 3/31/24)

	QTD	YTD	1 Yr	3 Yr	5 Yr	Since Inception (5/31/18)*
Class I	2.43	2.43	13.45	6.24	5.52	5.37
Credit Suisse Leveraged Loan Index ¹	2.52	2.52	12.40	5.82	5.30	4.99

*The Fund acquired substantially all of the assets of another investment vehicle (the "Predecessor Fund") on April 12, 2022 in exchange for shares of the Fund, and the Fund commenced operations on such date. Inception date shown is for the Predecessor Fund.

Performance cited represents past performance. Past performance does not guarantee future results and current performance may be lower or higher than the data quoted. Returns shown assume reinvestment of dividends and capital gains. Investment returns and principal will fluctuate with market and economic conditions and you may have a gain or loss when you sell shares. For the most current month end performance information, please call +1 866 778 6397. Class I shares are available only to investors who meet certain eligibility requirements. Class Y shares can be made available to the general public without a sales load.

Transportation	4.00%	4.18%
Utility	0.00%	2.31%

IMPORTANT INFORMATION

- ¹ The Credit Suisse Leveraged Loan Index tracks the investable market of the US dollar denominated leverage loan market. All loans are funded term loans with a tenor of at least one year and are made by issuers domiciled in developed countries. It is not possible to directly invest in an unmanaged index.
- ² **Yield to Maturity:** The percentage rate of return for a bond assuming that the investor holds the asset until its maturity date. **30-Day SEC Yield:** Reflects the dividends and interest earned during the fund's most recent 30-day period after expenses. **30-Day SEC Yield (unsubsidized):** 30-Day SEC yield but does not reflect fee waivers or reimbursements.
- ³ Top issuers are shown as % of total net assets. Information about the Fund's issuers should not be considered investment advice. There is no guarantee that the Fund will continue to hold any one particular security or stay invested in any one particular sector. Holdings are subject to change at any time.
- ⁴ Ratings shown are given by one of the following national rating agencies: S&P, Moody's or Fitch. Credit ratings are subject to change. If there are two or three ratings for a security, the simple average of those ratings is used. If only one of the agencies rates a security, that rating is used. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC/CC/C and D are below-investment grade ratings. U.S. government and agency mortgage-backed securities, if owned by the Fund, are included in the U.S. Treasury/Agency category (included only if applicable). Holdings designated NR are not rated by these national rating agencies and, where applicable, include net derivative positions.
- ⁵ Sector diversification excludes cash equivalents. Diversification does not ensure against loss.

Risks: The Fund's returns will vary, and you could lose money by investing in the Fund. Bonds and bond funds are subject to interest rate risk and will decline in value as interest rates rise. The Fund may invest in obligations with interest rates that are reset periodically, and the value of floating rate securities may decline if their interest rates do not rise as quickly, or as much, as general interest rates. Collateralized Loan Obligations (CLOs) are debt securities issued in different tranches, with varying degrees of risk, and backed by an underlying portfolio consisting primarily of below investment-grade corporate loans. The return of principal is not guaranteed, and prices may decline if payments are not made timely or credit strength weakens. CLOs are subject to liquidity risk, interest rate risk, credit risk, call risk and the risk of default of the underlying assets. High-yield bond issuers are usually not as strong financially as investment-grade bond issuers and, therefore, are more likely to suffer an adverse change in financial condition that would result in the inability to meet a financial obligation. Accordingly, securities and loans involving such companies carry a higher risk of default and should be considered speculative. Investments in bank loans may be subject to limited public information and difficult to value. The secondary market for bank loans may be subject to irregular trading and wide bid/ask spreads, which may cause the Fund to be unable to realize the full value of its investment in the bank loan.

This material must be preceded or accompanied by a current prospectus. Investors should read it carefully before investing or sending money.

Perpetual US Services LLC serves as investment adviser to the Fund. Barrow Hanley serves as investment sub-adviser to the Fund and is responsible for the management of the Fund's portfolio of securities.
